*Reveal Designs Unveils A New Hardware Collection Honoring The Architectural Legacy Of Legendary Architect Frank Lloyd Wright.*

(White Plains, NY. February 9, 2011) The architectural legacy of legendary architect Frank Lloyd Wright has been cleverly translated into the first-of-its-kind, stunning new Collection of hardware that pays homage to his singular aesthetic.

Born out of a partnership between Reveal Designs and the Frank Lloyd Wright Foundation, the new TALIESIN DESIGN™ HARDWARE COLLECTION was initially embarked upon over one year ago by the students and faculty of the renowned architectural school known as The Frank Lloyd Wright School of Architecture, founded by Wright in 1932. The Collection has been crafted and is being marketed solely through Reveal Designs, an exclusive manufacturer and distributor of high-end door hardware, cabinet hardware and accessories.

Each of the initial series within the TALIESIN DESIGN™ HARDWARE COLLECTION is true to the Wright architectural design principles – using elegant, simple lines and the overarching belief that form follows function. All are intended to promote an understanding of how buildings and the natural environment can work together in harmony to enhance the experiences of daily life.

The TALIESIN DESIGN™ SERIES 630 and SERIES 631 are kindred spirits and could easily be mixed and matched for an eclectic look. Both are available as 4.25" or 7.25" pulls and may be finished with stainless steel and a choice of beech, walnut, oil rubbed bronze, or as solid stainless pieces. Retail prices range from \$55 to \$79.

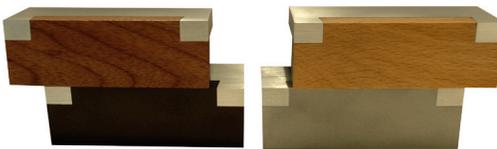

The third series release named the TALIESIN DESIGN™ SERIES 632 contains bold geometrical shapes that integrate an effortless fusion of wood and metal. Available in beech, walnut, oil rubbed bronze and stainless steel finishes, the series includes pulls in three sizes – 1.25", 3.75" and 7" – with retail prices ranging from \$50 to \$69 each.

Reveal Designs is proud to be a partner with the Frank Lloyd Wright Foundation and its School of Architecture and already has plans to expand the Collection to include additional cabinet hardware, door hardware and accessories.

The TALIESIN DESIGN™ HARDWARE COLLECTION represents one of the first collaborations with the Frank Lloyd Wright School of Architecture to develop modern products using the architectural philosophies of Wright.

## ABOUT REVEAL DESIGNS

Reveal Designs partners with exceptional design firms to create unique and ever expanding lines of door hardware, cabinet hardware and accessories. To date, Reveal Designs has partnered with James Cutler and his firm Cutler Anderson Architects, Peter Bohlin and his firm Bohlin Cywinski Jackson, The Frank Lloyd Wright School of Architecture and Matthew Quinn. All of the partner-designed products are handcrafted predominantly in the U.S.A. and constructed of only the finest quality materials, including stainless steel and bronze. Reveal Designs products are sold exclusively through its worldwide retailer/distributor network. For more information on Reveal Designs, please call 914-220-0277 or visit [www.reveal-designs.com](http://www.reveal-designs.com).

## ABOUT THE FRANK LLOYD WRIGHT SCHOOL OF ARCHITECTURE

Taliesin, the Frank Lloyd Wright School of Architecture with campuses in Arizona and Wisconsin offers two fully accredited degrees: Masters of Architecture (M.Arch) and Bachelor of Architectural Studies (BAS). Graduates of the program are prepared to enter leadership roles within the architectural profession and become licensed architects upon completion of internship experience and passing the architectural exam. Both degree programs are designed for students who thrive in a multifaceted environment focusing on rigorous design, critical thinking, and hands-on learning. The small-scale of the school facilitates an individualized educational experience and fosters a close relationship between students, faculty and staff. Project-based learning is central to the educational experience. With more than 90 percent of its graduates actively practicing architecture, the Frank Lloyd Wright School of Architecture builds upon the foundation of the educational ideas of Frank Lloyd Wright and interprets them within the context of our rapidly changing world. For more information on the School visit: [www.taliesin.edu](http://www.taliesin.edu).
